

CEC Status Update

Hans Verkuil

Cisco Systems Norway

CEC Status

- cec-gpio error injection support
- tda998x (including BeagleBoard Bone support after gpiolib changes)
- ChromeOS EC CEC
- In progress: omap5/dra7xx/am57xx TI (waiting for DSS redesign to land)
- In progress: SECO cec driver (for UDOO x86 boards, expected for 4.21)
- DisplayPort CEC-Tunneling-over-AUX for i915, nouveau, amdgpu
- MegaChips 2900 chipset based adapters seems to support this protocol very well
- Continuing work on CEC utilities, esp. the compliance test: it is in continuous use at Cisco.
